## Education

2026 - 2028 **HARVARD BUSINESS SCHOOL** **BOSTON, MA**
Candidate for Masters in Business Administration. Sainsbury's Management Fellow, Horace Goldsmith Fellow, Entrepreneurship Club leadership.

2014-2019 **DUKE UNIVERSITY** **DURHAM, NC**
Master's of Engineering Management.
Bachelor of Science, Mechanical Engineering; Minor, Visual Art Design. Robertson Scholarship.

## Experience

Jan-Sept 2026 **ITN** **LONDON, UK**
**Principal Product and Workflow Manager**
Led one of the UK's largest news television company's migration to Cloud and AI technologies.
- Led change management over 1,000 production staff, uplifting bottom line guarantee by an additional £2.5M annually over 5 years.
- Directed the movement of 3.2PB of footage to AWS and the digitization of 12,000 hours of archive content.

2025-2026 **OPENORIGINS** **LONDON, UK**
**Solutions Architect**
Served as the primary product and technical advisor to enterprise customers from discovery to deployment, leading the engineering and product team.
- Launched modular API gateway for first enterprise integrations that cut partner onboarding time by 50%.
- Defined and developed new blockchain and AI applications for production with engineering and research teams.
- Restructured engineering, eliminating one-third of the team, rebuilt roles, doubled sprint velocity in two months.
- Scrapped four disconnected prototypes; fused into one AI-plus-blockchain platform, trimming cloud spend 45%.
- Led R&D-to-GTM for perceptual hash and keypoint AI detection tech; closed three six-figure pilots.

2019-2025 **CONSERVATION X LABS** **WASHINGTON, DC**
**Head of Product: Sentinel AI**
Built and led Sentinel, deployed by conservation rangers and biosecurity teams across 16+ countries.
- Hired and grew the Sentinel team threefold across North America and Europe for hardware, software, and AI.
- Quadrupled annual revenue closing 21 enterprise and government customers (US & NZ agencies, AB InBev).
- Showcased Sentinel AI at the UN, World Bank and WEF; awarded WEF Top Innovator, Edge AI Alliance Best Consumer Product, and UN AI Top 100 (3 years running).
- Designed, launched, and scaled machine-learning models in cloud and edge environments resulting in a 500x reduction in data processing latency and 90% reduction in operational costs.
- Founded and ran Conservation X Labs' internship program for 5 years; recruited and personally mentored 35 students from various universities globally, many of whom went on to PhDs and conservation careers.

**Internships** OpenROV Ocean Robotics (now SoFar Ocean), Summer 2017, San Francisco. Interbrand Graphic Design, Summer 2016, New York. Appal-TREE Videographer and Engineer, Summer 2015, Whitesburg Kentucky.

**Community** Founder and operator of an educational platform on disability, prosthetic technology, and limb difference (2020–present, 2.5M+ aggregate following across Instagram, TikTok, and YouTube); ambassador for COVVI, a UK-based bionic-arm manufacturer.

**Personal** Fluent in Norwegian (10+ years of international experience, including authorized work in the US). Experienced public speaker: The United Nations, World Bank, AI For The Rest Of Us Conference, and more
